An enhanced product line born from our classic signature series, providing a vast expansion of colors, modifications, and sizes.

Policies and Ordering

Privacy Policy

Your privacy is important to Adornus Cabinetry. We use the information you provide us when placing an order only to complete that order. We do not share this information with outside parties except to the extent necessary to complete that order. We use return email addresses to answer the email we receive and to communicate your order status and verified shipping costs. Your information is not shared with outside parties.

Shipping

Cabinet orders will be scheduled to be shipped by a dedicated Adornus truck or via a certified contract carrier. Cabinet orders that need to be expedited may be shipped via LTL common carrier, per request (additional charges may apply). Service and Warranty orders will typically ship when ready via UPS. Service and Warranty orders too large to ship via UPS will be scheduled on our private carrier truck or LTL by request (additional charges may apply).

Concealed Damage

All concealed package damages must be reported within 30 days of receipt of order, all concealed package damages must be reported to Adornus in writing with supporting photos attached.

Design & Pricing Software

Adornus supports 20-20 design software. The catalog can be found within the Dealer Portal. Our catalog is produced by a third party, therefore Adornus cannot accept liability for discrepancies between design software and actual invoice. In all cases, actual invoice pricing will take precedence.

Care and Cleaning

Cabinetry should be cleaned using a damp clean cloth. When cleaning, follow the grain of wood to avoid possible scratching. For more difficult residues, a mild soap or furniture cleaner can be used. When using anything more than water, we suggest that a test be performed in a concealed area first.

ACPO (Adornus Cabinetry Pricing and Ordering Program)

This program allows you to electronically price and submit orders, eliminating the need to hand-write and price your projects. All future orders will use this new program! **In order to receive ACPO**, you must first submit a request to **marketing@adornus.com**. You will then receive an invitation email from the program which will allow you to set up your own user name and password.

Online Order Confirmation

Orders will be processed in the order they are received. Order confirmations are typically returned within 24-72 hours of receipt of the order, however this time may be extended due to high order volumes. **Please submit orders with minimal amounts of corrections needed.** Confirmations with more than 5 changes will incur a \$150 charge, and will delay delivery to the following delivery week. **Please carefully review the confirmation acknowledgement, once signed and returned, no corrections, changes or cancellations can be made.**

Final Order

Order confirmations must be signed before the order will be released into production. Lead times are based on receipt of the signed confirmation, not when the order is placed. Your final order will include the week the order will be shipped. Final orders will not be sent to production prior to payment according to your payment terms.

Service and Warranty Orders

Service and Warranty orders will be released to production WITHOUT a signed confirmation, upon payment according to your payment terms. Service and Warranty orders will be released 24 hours after receipt of the order. Please be sure to submit clean and accurate orders as no changes may be made after release to production. **All warranty orders must have a photo of the item attached to the order.** Adornus will consider all orders that DO NOT include a cabinet box to be a service order and will be treated as such.

Rush Orders

Cabinet orders of 3 or less cabinets may be rushed for an upcharge of 25%

CABINET CONSTRUCTION SPECIFICATIONS

Doors:

We use Select North American Hard Wood for our cabinetry. It's a handsome selection that has been widely used in the manufacturing of cabinetry for years, its versatility and durability makes it a timeless classic in our industry.

Box Material:

Our boxes are made of CARB Phase II certified plywood with wood veneer. There is no formaldehyde added in the process of making our plywood. The boxes are ¾" plywood for sides, bottom and top (wall cabinets), and reinforced with 3/8" plywood backing. Our cabinet boxes are the sturdiest boxes you will find in the industry.

Finish:

The Adornus Designer Series doors are multi-step finished with a two-part post-catalyzed conversion varnish. We use formaldehyde free, high performance conversion varnish that is heat resistant, chemical resistant, and has exceptional nonyellowing characteristics. Conversion varnish is more durable and has a higher elasticity, which allows it to hold up better through joint expansion as compared to traditional lacquer. The boxes go through a UV finishing process, which is durable, environmentally-friendly and free from formaldehyde and hazardous substances. This process is not only safe but also kinder to the environment at our production facilities.

Drawer boxes:

The drawer box for the Adornus Designer Series is constructed of solid wood with a clear finish and is joined with tight dovetails. All drawers come with a 3/8" plywood floor.

Shelving:

Two adjustable shelves come with every 30" and 36" high wall cabinet. Three adjustable shelves come with 42" high cabinets. One 15" deep, adjustable shelf comes with every top drawer base cabinet. Two 15" deep, adjustable shelves come with full height door base cabinets. Tall cabinets come with 21" deep shelves. Shelves are made of ¾" plywood and edgebanded on front and back.

Toe kicks:

We offer finished toekicks 96" x 4 ½" x ¼" for purchase separately.

Drawer Glides:

SALICE Under mounted, full extension, soft close.

Hinges:

SALICE 6-way adjustable, concealed, 110 degree soft closing hinges. Specialty cabinets such as lazy susans and angle wall cabinets are not available with soft closing system.

Finish Charges:

All standard paint finishes are offered at no additional charge. All standard stains will incur an overall additional 10% charge listed at the end of the final order.

NOTE: Orders with 5 or less cabinets will incur an additional \$250 net set up fee.

Appliance Fillers (Oven Cabinets, Microwave Bases & Oven Bases)

When ordering cabinets that will hold appliances such as wall ovens or in some cases larger Microwaves. **It is very important to note that this cabinet line is frameless.** Its advised that you size your appliance or cabinet to match. In some cases fillers or a cutout may be required to properly install the appliance.

EXAMPLE (When fillers are required)

If you have a 30" oven it will roughly have a cutout of 28.5" wide best fit our 30" oven cabinet. To install a 30" Oven appliance into a 33" oven cabinet fillers would be required as shown below in red.

Adornus will ship a flat panel matching the opening which can be used to make fillers or a cutout frame for your appliance.

Sizing Panels

When ordering Painted, SoHo, or Finished panels it is important to notate the size required to fit your desired appearance. Adornus requires sizes to be specified before they can be ordered.

An End panels **width should match cabinets depth** while the **height matches the height of the cabinet**. It is important to account for factors like if the panel will be flush to the box or the door or if it rest atop of the toekick or extends to the floor. **Adornus will not remake panels that were ordered incorrectly or accidentally.**

When stacking cabinets that will have end panels Adornus will not size specific panels required for the project. The designer or dealer must provide sizes required for the project. In some cases panels may need to be split as the maximum length on one side is 96".

SOLE AND EXCLUSIVE REMEDY: In the event of a defect in the workmanship or materials of a Product occurring during the Limited Warranty period described above, Adornus will, at its sole option, repair or replace any defective Product or Product component; provided, if it is not commercially feasible to repair or replace a defective Product or Product component, Adornus may refund the original price paid by Residential Purchaser for the defective Product or Product component, or provide a credit towards a similar type of product sold by Adornus.
